Finest Instructors:

We possibly follow the most demanding selection and training processes for our trainers which reflect in the results our students have achieved. But more than anything it is the personal touch that our students value the most in our trainers.

Research and Development Team:

Live Technoworld's IELTS has an R&D team that is always working towards improving the teaching methods and question solving techniques. Live Technoworld's IELTS is among the few institutes which have an R&D team specialized for IELTS and that is customized for the Indian student.

<p>Updated Curriculum: With a significant number of our students taking the test every week, we are able to record the smallest of changes in the tests. This has also allowed us to have an extensive and exclusive databank of questions; giving our students that strong extra edge.</p> <p>Personal Assistance: This is one of strongest points. Our trainers are full time and are allotted teaching slots of only half the day leaving the other half free for the students to approach them for personal assistance.</p>	<p>Customized Batches: We strongly believe that the developmental needs of each student are different and they can't be boxed in a single type of a batch and thus we offer a choice of programmes depending on a student's requirements and level.</p> <p>Specialist: We are only into IELTS, and thus specialists in our fields. All our efforts and energies are devoted to making the IELTS learning experience better.</p>
